Re: EPA Approval of the Remedial Investigation Report, Findett/Huster Road Substation
Superfund Site, St. Charles, MO

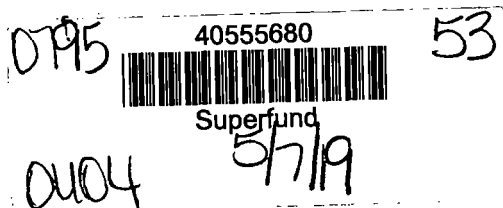

Dear Ms. Miller:

The U.S. Environmental Protection Agency has reviewed the document titled "Remedial Investigation Report" Huster Road Substation, St. Charles, MO, dated December 2018. The EPA, in consultation with the Missouri Department of Natural Resources, is approving this report. We appreciate the time and effort dedicated to developing this document and look forward to working with Ameren to evaluate the follow-on Feasibility Study which implements the findings from this report. We are hopeful that the efforts undertaken at this site will protect both the health and environment of the surrounding community. If you have any comments or questions, please feel free to contact me either by email at sperry.clint@epa.gov or by phone at (913) 551-7157.

Sincerely,

Clint Sperry
Remedial Project Manager
Federal Facilities and Post Construction Section
Superfund and Emergency Management Division
